## **DETAILED ACTION**

### ***Oath and Declaration***

Claims 1-30 are rejected being a properly claim to the right to foreign priority has not been properly executed. Although a claim for foreign priority has been submitted by a statement filed by the attorney. Applicant has not complied with the requirement of 37 CFR 1.63©, since the oath, declaration, or application data sheet does not acknowledge the filing of any foreign application. A new oath, declaration, or application data sheet is required on the body of which the present application should be identified by application number and filing date.

The United States will recognize claims for the right of priority under 35 U.S.C. 119(a)-(d) based on applications filed under such bilateral or multilateral treaties as the Hague Agreement Concerning the International Deposit of Industrial Designs, Benelux Designs Convention and European Community Design. In filing a claim for priority of a foreign application previously filed under such a treaty, certain information must be supplied to the United States Patent and Trademark Office. In addition to the application number and the date of filing of the application, the following information is requested: (1) the name of the treaty under which the application was filed; (2) the name of at least one country other than the United States in which the application has the effect of, or is equivalent to, a regular national filing; and (3) the name and location of the national or international governmental authority which received such application.

### ***Amendment***

The amendment filed on 5/27/2005 is improper. Claims 1 and 15 use double brackets around comma's. The double brackets should be replaced with single brackets under 37 CFR 1.121.

### ***Conclusion***

Note; Although in a phone conversation with the attorney for the applicant the examiner stated that the written claim for foreign priority, signed by the applicant's attorney, was acceptable, the examiner was incorrect. The attorney can either claim the foreign priority with a supplemental oath or declaration, or by use of an application data sheet.
